TASK SEATING

tally - a different look

Similar to Nomi, Tally is a modular system which allows to interchange parts and accessories to meet individual requirements, while maintaining a consistent look throughout the office. The square more contemporary design of the backrest, combined with Tally's ergonomic benefits and quality make it a popular and reliable choice.

functionality and style, make tally a popular choice

Tally features a medium and high back, ergonomically shaped and height adjustable. The square design compliments the contemporary office environment.

Choose between fixed or height adjustable arms to suit individual requirements and work stations.

PCB mechanism, two levers to adjust back angle and seat height.

Synchro mechanism with body weight/height tension adjustment.

Moulded seat foam for a comfortable sit. The waterfall front prevents pressure behind the knees and upper legs. All seats are height adjustable.

Choose between a black nylon, satin or polished aluminium five star base with a choice of castors.

ISB mechanism: Two levers to adjust seat height and back angle. An additional third lever can be found on the opposite side to adjust the seat angle.
